Hi everyone.
I'm P1lotz and I am a Danish student, and I really like to make 3d models.
This time I have made a dragon-themed recorder.

I made it for my Mother to moms Day.

It does not sound perfect, but it is a pretty fun print and looks amazing.

Video:

The dragon is made in Blender 3d, (not the same as my smoothie tho).
Feel free to upload your makes. I will really appreciate that. Also, if you make it sound better, feel free to upload the remix too. Just don’t sell it.

The Foot-Joint needs support. Else you can decide it yourself. I do recommend adhesion.

I recommend grinding the inside of the flute too. I feel like it makes the sound better.

I hope you'll have a great day. if you like this model, check out my other dragon models right here:
https://www.printables.com/model/313127-articulated-ice-dragon-by-p1lotz
https://www.printables.com/model/306338-blue-articulated-dragon
https://www.printables.com/model/272149-articulated-rocky-dragon

filament: Prusa galaxy black.

If you have better pictures, feel free to upload them, so I can use them for the thumbnail, thank you.

The model is made with measurements from **Michal Fanta's** recorder model.
His model: https://www.printables.com/model/94103-the-recorder-flute
I had some trouble making it sound like anything, so this helped a lot. Thank you.

Thanks to Mattias too, for helping with the basic idea.

Can you sell the model?
This model is 100% made by me, and you can not sell it, and reupload it without permission from me, unless you are a member of my club or have another agreement with me:D
