Filament clip works on many spool brands including Prusament, Amazon Basics, Overature, Hatchbox, AMZ3D and others. Very simple design.

**Version 2+**, added March 15, 2024 incorporates slightly smaller filament clasps and reverses the two clasps such that the smaller one is closer to the loop and the slightly larger one is closer to the opening.

Thank you to all who have contributed your suggestions for improvement. I do read and consider all of them.

**Version 2**, added on May 4, 2021, incorporates a slightly closer spool clamp with a small spool clamp-side filament holder, and a slightly tighter filament clip with minor adjustments.

## Print instructions

Use 4 perimeters and PETG filament for best results.

### December 2025 Addition

See my new [Magnetic Filament Spool Mounting System](#) for a Magnetic wall-mount filament spool holder. Strong, modular, axle-free design for clean, easy spool storage and exchange.
