updated 18. 6. 2023 | published 18. 6. 2023

Summary

Printable 1/4" thread screws to use with camera holders. Includes a few useful lengths as well as a 1/4" washer.

[Hobby & Makers](#) > [Mechanical Parts](#)

Useful for mounting an inexpensive webcam to a printer using a camera mount like either of these:

Camera mount for 3d printer**Swing Arm Web Cam Mount**

Can also be used with these other models:

Cat Basketball

For help cleaning printed threads:

Camera Tripod Screw 1/4" Tap

Printing tips: These can break easily when tightened if layer adhesion isn't strong enough. To overcome this you can try increasing temps, reducing or disabling cooling, using PETG rather than PLA and/or printing the screw on its side using supports.
