Summary

A cute little gecko with a super flexible body!

[Toys & Games](#) > [Other Toys & Games](#)

Tags: [lizard](#) [gecko](#) [flexi](#) [flexible](#) [articulated](#)

A cute little gecko with a flexible body and tail!
Unlike the [dachshund](#), this one prints faster and it needs no supports, while still being super fun to play with.

Prints in PLA with no problems, but I assume PETG should give the gecko an even more flexible body. I haven't tried it, if you do, please post your make!

Have fun with your super flexi gecko!
