

Prusa Mini Revo Micro mount with ADXL - Hexagon remix

[VIEW IN BROWSER](#)

updated 29. 6. 2023 | published 29. 6. 2023

Summary

Prusa Mini hotend mount with bestagons instead of E3D logo.

Based on thekojent's Revo Micro mount for Prusa MINI with ADXL
<https://www.printables.com/model/427159-prusa-mini-revo-micro-toolhead-mod-adxl-and-nutser>

it just replaces E3D logo on hotend mount with hexagon pattern, to match my printer's theme. That's it

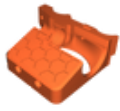

This remix is based on

Prusa Mini+ Revo Micro Toolhead mod - ADXL and Nutserts
