Comfort grip for a Wacom Intuos Pen and Touch stylus (model LP190K), lightly inspired by the shape of the Wacom Airbrush Pen.

The STL includes a separate part to use as a modifier for the fuzzy skin portion of the grip.

Best printed standing up with a brim and tree supports. I designed this to be printed with TPU, so the tolerances are pretty tight. My print settings:

- Overture High Speed TPU
- 0.2 layer height
- 0% infill (keeps it nice and squishy)
- 2 perimeter walls
