## Summary

Dice shaped storage container with friction fit closure

[Household](#) > [Home Decor](#)

Remix of a dice box model with friction fit closure. Sized 100mm but can be scaled 70-150%.

More practical as a storage container than as a giant playable dice but if you think you'll be tempted to toss it around, I recommend to print it with PETG and have at it!

Print instructions: Just print as is, do not use supports. Bridging will take care of the pips, which can then be either painted, or printed and glued for the cleanest look.
