Disclaimer!!!! This is a work in progress and hasn't been tested yet.

I ran into issues with being able to use the original rack due to the arrangement of my cable chain and bowden tube on my machine, rather than rewiring everything I decided to add a 15mm drop for the rack mounting points. This will, unfortunately, be a longer print and require supports which the other one didn't.

Print Settings

Printer Brand:

Creality

Printer:

Ender 3
