After creating my Stargate Stratego-style game, I decided I needed a box to put it in.

You can find the game here:

<https://www.prusaprinters.org/prints/49637-stargate-stratego-gate-streeg-o>

This is a box that will fit all the pieces (even the alternates), along with the Gameboard itself! The game board lays on a shelf near the top. Finger holes are built into the side to make removal of the gameboard easy.

The printed box measures 194x210 mm by 72mm tall

**01/12/2021 Update:** Just added New versions of the STL's (Most current) along with pre-sliced print files!

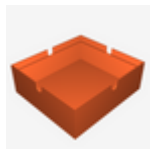

## Print instructions

This is easy to print! No supports are needed.

After printing, it should be ready to use

I ran with 25% infill on my MK3S

## Model files
