### Summary

Cellular Lamp diffuser

[Household](#) > [Home Decor](#)

Added a printable light diffuser for the cellular lamp design. This is made to easily integrate light into the cellular Lamp

Files are separate to make integration easy for people that have already printed the lamp.

The designs are originally made for a cellular lamp that is scaled 140% from the original file. And then the parts are scaled down to accommodate already printed cellular structures.

All credits for the design of cellular lamp goes to the original designer.

Print Settings

Printer brand:

RepRap

Printer:

ORIGINAL PRUSA I3 MK2 3D PRINTER

Rafts:

No

Supports:

No

Resolution:

200µm

Infill:

15%

Notes:

The base and Lamp structure are printed without using any support. For the best result turn supports on when printing the dome.
