Summary

Another space saving Gridfinity holder - GridfiniTetris Level 2

[Household](#) > [Other House Equipment](#)

Tags: [angle](#) [gridfinitetris](#) [45degree](#) [gridfinity](#) [square](#)

To store my woodworking tools with as little footprint as possible I started my GridfiniTetris series. This second installment introduces a Gridfinity bin for a 45 degree angle. It uses only 7 squares instead of the 12 a 3x4 would.

The height is 5 units and it has a chamfered edge to get it out easily.

Print without support. I printed it in PLA and it works like charm.

It prints in 2:30h on a X1C.
