Summary

A case with a clip on cover to hold a head torch and keep it safe and tidy.

[Household](#) > [Other House Equipment](#)

A simple case with a clip on cover that is sized and shaped to hold a head torch. The clip on cover has a bevelled edge so will stop splashes and there is plenty of room on the sides to place text when slicing it.

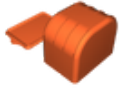

Hopefully this will stop my kids from losing or damaging their head torches when they go to scouts.

Th lid clips on quite tight but loosens up after a couple of closes and opens.

I printed it with the bottom of the container on the build plate, the ribs are there to make the bridges on the first few layers shorter and stop it turning to spaghetti.
