Summary

A hook that goes on the post of a car headrest, to hang bags/purses.

My wife wanted some way to hang her purse and grocery bags in the car, so they wouldn't take up space on the back seat.

Note: it is necessary to take the headrest out of the seat back to install the hook.

Printed in PETg to help withstand summer car heat.

I've included a S.T.E.P. file, mainly so you can resize the hole to fit your own headrest post.
