

## Parametric Broom Handle Holder (OpenSCAD) (Command Strip Compatible)

 **mofosyne**

[VIEW IN BROWSER](#)

updated 29. 6. 2023 | published 29. 6. 2023

### Summary

Designed for either screw mount or command strip mounting

[Household](#) > [Kitchen](#)

Tags: [broomholder](#)

This was actually created to hold a dishmatic brush, but can work for broom as it is fully parametric. Current screw default is for M3 screws.

----

Source code provided, so you can learn and make other similar remixes. Some ideas to consider... toothbrush holder?
