Tags: [biologylab](#) [laboratory](#) [biology](#) [laboratorytools](#)
[tubeholder](#)

Large falcon tube rack for F15 or F50 tubes, to be used for storage, aliquoting, etc.

F50 holds up to 8x 50mL Falcon tubes
F15 holds up to 18x 15mL Falcon tubes

Edit: I added a couple of extra variations allowing for the flippable version to have 2mL or 1.5mL centrifuge (Eppendorf) tubes as well as well as the “ultimate version” that has sections for each tube type.

Let me know if you want a specific configuration/combination!

Printed in white and gold PLA. I recommend using supports for the square holes. Supports are not necessary for the round holes but it will help them be rounder!
