This is a holder / stand I designed for the Smoktech Novo 2 vape. It also holds 3 pods and 3 salt nic juice bottles. All fit and remove very nicely.

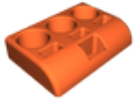

I printed on Ender 3 S1 with Polymaker PLA.

10% infill with 3 walls, 0.2 layer height and variable layer height.

0.4 nozzle and 0.5 line width

The variable layer height isn't needed was using to decrease print time.
