### Summary

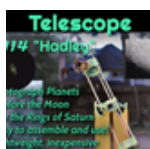

Modified Rear Sight V2 on Support Ring for Hadley Telescope which fits the Prusa MINI build volume.

Tags: [astronomy](#) [telescope](#)

This is a modified version of the Rear Sight V2 on Support Ring by @SDHayes for Hadley Telescope which fits the Prusa MINI build volume. This was the only part which did not fit the print volume of the Prusa MINI. The rear sight is just shortened on the top arch, all other parts were untouched to not mess with the functionality.
