Tags: [sensor](#) [adhesive](#) [aqara](#) [mount](#) [fp2](#)

I designed this holder to mount Aqara FP2 the presence sensor almost parallel to the wall (pointing into a hallway). The metal plate that comes with the sensor for the magnetic base can be screwed on the tilted plate. The holder itself can be mounted to the wall using adhesive strips (Tesa or 3M). By rotating the sensor on the magnetic base it can be turned in almost every direction.

As alternative to mounting it to a wall, it can also be used as a stand.
