Summary

Display showing beer brewing process, including fermentation, maturation, to bottle on a base.

[Household](#) > [Home Decor](#)

Tags: [fermentation](#) [beer](#)

This was a gift for a local brewer (Lochiel), showing one of their beers (Scotch) on a display with fermentation and maturation tanks.

I had problems getting the top of the tanks smooth (FDM printer), my skills at post-processing (e.g., sanding) are lacking, so mine were always rough on top. I'm sure others are much better than I. A resin printer would no doubt have better results.

The name, Lochiel, is actually in the base. You can cut it out (split below the name) to remove it. I changed filament for the name to highlight it.
