updated 11. 7. 2023 | published 11. 7. 2023

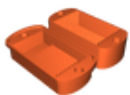

Summary

This thin section box has a magnetic lid and securely holds 10 rectangular petrographic thin sections.

[Learning](#) > [Other 3D Objects for Learning](#)

This thin section box has a magnetic lid and securely holds 10 rectangular petrographic thin sections. The "V" shaped slots hold the slide without contacting the surface. If the slide has a conductive coating for analytical work, it should remain unmarred.
