Summary

A simple Name sign for your desk with parametric text

[Household](#) > [Office](#)

Tags: [sign](#) [parametric](#) [desk](#) [office](#) [name](#)

A simple sign for your desk with e.g. your name or anything you want. Text is parametric in fusion360 with plugin "parametrictext". Print the text part with no bottom and no top and any infill to make it look cool like in the picture. Then glue the text part onto the base.
