I made this for a YouTube/TikTok Video... But it actually is very useful.

**NO Assembly needed.** Just print it standing upright. Maybe add a brim if you have adhesion problems.

**HOW TO USE?** — Check out the YouTube Shorts video I linked below to see how to use it :)

I hope you like it. I will be making many more funny and useful/useless inventions soon! You will see them first on my YouTube Channel “[David Krammer](#)”
