Summary

Our Pampered Chef butter knife handle broke, so I made a replacement.

The handle fits well, but I recommend reducing the pin tip size slightly to improve the overall fit. I sized it for M3 10mm screws, but not the nuts, so adding diameter to the hole on one side of the handle is also suggested. I printed this with standard PLA and 15% infill. The included photo is after it has been run through the dishwasher a couple of times.
