## Summary

Challenge Coin display using Command Strips

[Art & Design](#) > [Wall-mounted](#)

Tags: [display](#) [hexagon](#) [coin](#) [modular](#) [wallmount](#)  
[honeycomb](#) [coinholder](#) [challengecoin](#)

I was inspired by a few different coin holders but none had the size or easy mounting that i liked. My base design allows for a slotted holder to be put in so coins of different sizes and shapes can still fit on the same base. I attached three options for coin holders. All three options slot into the hexagon frame which has a dimple in the back for a command strip.

One holder i have that slots into my base is a remix but the rest of the design is all original.

**Update 4/4/24** Added a double coin holder to show both sides of a coin.

## This remix is based on

## Challenge Coin Stand (2-inch coins)
