Summary

A washroom organizer tray I made to fit on my small sink top with drainage holes.

Tags: [toothbrush](#) [washroom](#) [sink](#) [bathroom](#) [organizer](#)

I built this model with drainage holes to prevent water pooling up, molding, etc. which was a problem with my store-bought wooden one. 8" by 4" footprint and needs to be scaled down to around 80% to fit on a Prusa Mini. The photo is printed with Polymaker PETG at 240C and 80C bed.
