25 g

Prusa MINI /  
MINI+

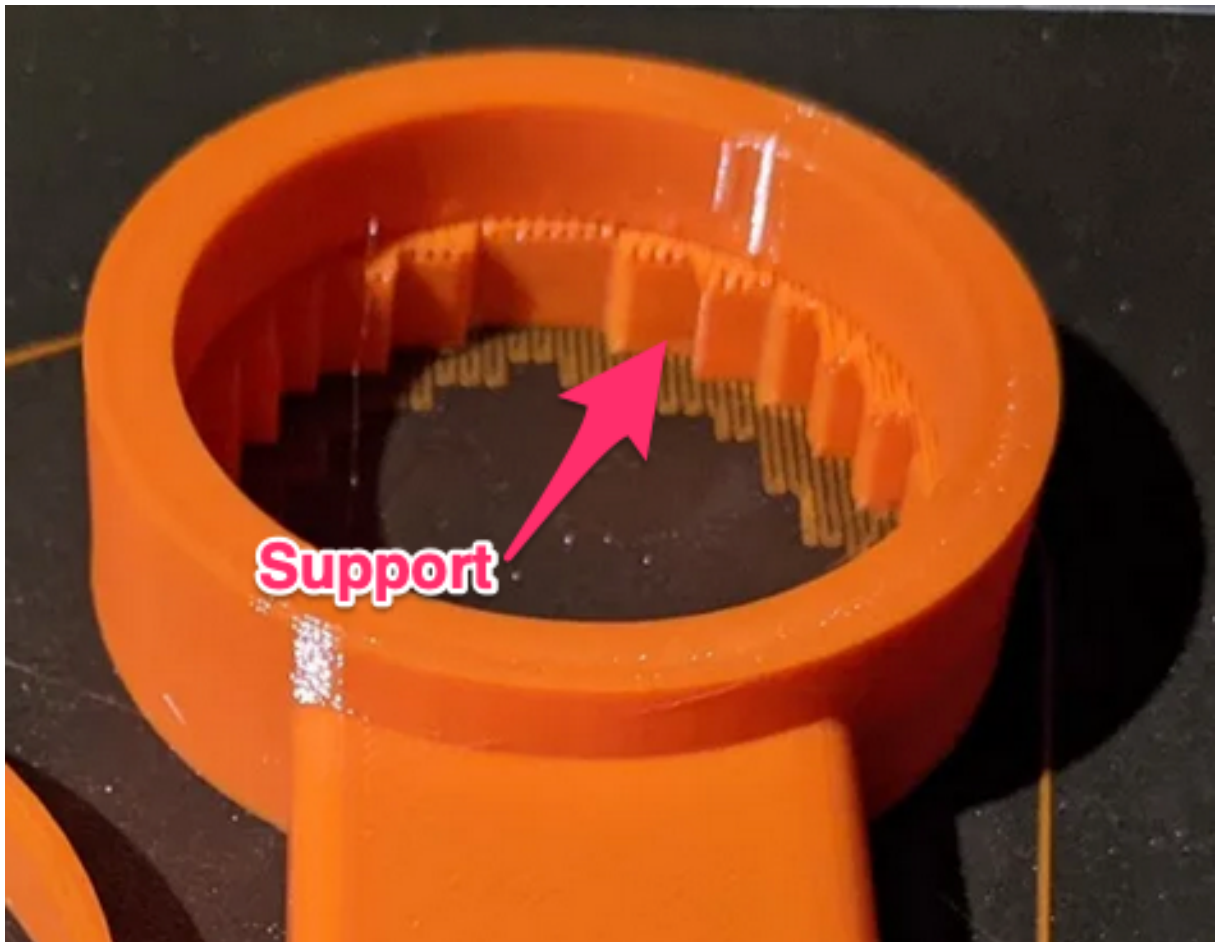

[Household](#) > [Other House Equipment](#)

Laundry Cup Holder/Organizer to keep your laundry cap with your laundry detergent. It also keeps the excess dripping in the cap, and off the lid of the washing machine. This particular model works for "All Free & Clear", but should work with others.

Designed in tinkercad.

Printed in 2 parts, because I wanted to minimize support and increase structural integrity of the top circle. Uses dovetails to clip the two together, if you need to, use CA/Superglue to permanently attach the two. Otherwise, the friction fit should work just fine.

Requires support on the underside of the circle that attaches to the bottle.

## Updates

- v2 - The tolerance of the dovetail should now be tighter which means, you shouldn't need glue and they should just friction fit. The original was designed for a Makergear m2. I've since acquired a Prusa Mini+ which prints things a little better. :)
