## Summary

Skadis compatible headphone hanger

[Hobby & Makers](#) > [Organizers](#)

Tags: [skadis](#) [hanger](#) [headphone](#)

Just a headphone holder for the IKEA SKADIS pegboard I originally made for my wife. I wanted something a little heavier and easier to print than I could find.

Hardware

4x M3x15mm screws

The front edge is held on by the two screws in front, separate to make printing of the overhang easier. The Hooks are held on by 2 more screws (1 each). Make sure your screws go entirely into the backplane of the hook (preferably all the way through), or the hooks will likely break when putting it onto the pegboard. M3 screws aren't exactly ideal, but what I had available.
