Summary

Single Color version of my dual color winder.

[Sports & Outdoor](#) > [Outdoor Sports](#)

This versatile antenna winder is ideal for a variety of uses, such as guy lines, counterpoise wires, antenna wires, or even the whole antenna by adding a BNC connector to one of the accessory holes. The winder is a staple in my amateur radio kit. I use them during my Parks on The Air activations, often using one for the counterpoise on my Buddipole antenna system and three for guying when necessary.

Perfect for QRP, POTA, and SOTA activations.

5 1/2" (140mm) x 2 " (51mm) x 1/8" (4mm)
