Summary

Easy to print, easy to assemble with snap-together features. Fits the typical Scotch shipping tape roll, among others.

Have a few reels of tape around but no dispenser? Fear not!

Simply print out this design, snap the two halves together over your tape, and go to town.

It is recommend that you glue or tape a razor blade at the edge of the dispenser, the plastic cutter built into the print works, but not as well as a salvaged metal blade.
