Hi everyone

It is my 1st time design a model and upload.

The model is very easy to print and no need for support.

I created the model on Tinkercad and print it my self. And thought I'll upload the model. Something for the kids to play or print.

Please if any adjustments needed. Let me know. I'm new in this hobby. Any advise is much appreciated. Thank you.

Download it.

Slice it.

Print it.

Let the kids have fun with it.
