Summary

Replaces the carbon fiber barrel suggested in this build.

Tags: [dart](#) [turret](#) [nurf](#) [barrel](#) [rifling](#)

Replaces the carbon fiber barrel suggested in this build. The rifling gently persuades the nurf dart to rotate. Needs to be glued into the barrel mount.

Still a work in progress. I plan on putting a camera on the turret. For better aiming. If I design any more attachments I will put them here.
