I needed a woundcounter that goes with the model when it moves.

Place it under the rim of your stand and push it around the tabletop.
If you need other sizes. Please just let me know.

v2 is modified for my Movement Trays.

I put all of my things for Conquest in this collection: https://www.printables.com/de/@Godar27_758804/collections/1147861
