The **Twist Keeper** is a simple but well-designed product. You simply clip both loops onto the keeper and it will hold the loops together and prevent the string from untwisting when not in use. Using the Twist keeper means every time you take your string out of your bag it is ready to use.

The Twist keeper tool is also useful for clubs and activity centres as you can use the many different colour tools to identify the size of the string ensuring that you never get them mixed up.
