Uploading by request. Remix of @nicktodorov_738129 dock. Made a few modifications to suit my specific needs. Remixed in Fusion 360

- 1) increased depth and length of watch tray to accommodate Spigen rugged armor case
- 2) decreased depth of watch charger hole by 2mm for the shallower depth of the ultra charger; makes better contact with watch now
- 3) increased width and length of AirPods case caddy to accommodate the Simply Carbon Fiber case I have on it
- 4) added 6x3mm magnets to the base so it's secure to my Secret Labs Magnus XL metal desk.
