### Summary

i made this model for dog groomers who struggle with taking the blade apart due to stiffness

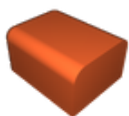

[World & Scans](#) > [Animals](#)

Tags: [dog](#) [dogs](#) [clippers](#) [groomers](#) [doggroomers](#)

this model is for all dog groomers who struggle to get those stiff blades apart.

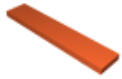

I recommend 100% infill for push part and 20% for handle. scale to size of choice, make sure to join parts in slicer by letting them overlap. i would use a material that is not brittle like petg
