Summary

A dual watertank that fits the 1:10 Trx4 Defender roofrack very nicely.

I took the model from RobRoy, a single fuel tank/car box, and copy/past another one, glued them together in TinkerCad en made it fit my TRX4 Landrover Defender's roofrack. That's all I did.

The model from RobRoy had a lid and holes to screw it to a frame. The dual tank I made has no holes and no lid. Keep that in mind.

TinkerCad named the file Frantic Armor. I didn't. But I like it.

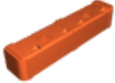

This remix is based on

1/10 RC Car Box
