updated 1. 7. 2023 | published 1. 7. 2023

Summary

water meter mount for a ESP32 cam module fitting an austrian watermeter.

[Hobby & Makers](#) > [Electronics](#)

This remix of a model from thingiverse matches an austrian water meter taking into account the meters dimensions and the cam distance to get good image results..

The “AI on the edge” project is remarkable and runs stable and delivers reliable results.
