updated 14. 1. 2021 | published 12. 1. 2021

### Summary

Some where to hold your change. You can clearly identify the coins you want and are easy to pick up.

---

Some where to hold your change. You can clearly identify the coins you want and are easy to pick up.

I created a sterling holder sometime ago but never got around to doing the Euro.

Sterling Coin Holder link: <https://www.prusaprinters.org/prints/29486-uk-coin-holder>

When empty you can see which denomination goes where in the holder as I have printed each denomination on the base.

The holder structure is so designed to give it rigidity.

### Print instructions

Print in PLA.

Place upright on Print Bed, no support required.

I printed 0.2mm quality, 15% infill,
