Summary

Boxing dinosaur with sunglasses and hoodie. Use support structures. Perfect for decoration or as a gift.

[Art & Design](#) > [Sculptures](#)

This cool 3D model shows a dinosaur ready to get into the ring! The dino is wearing boxing gloves, sunglasses and a hoodie. The model is designed in detail to show the wild character of the dino.

When printing the model, support structures should be used to achieve the best print quality. The supports help to support overhanging parts like the arms with the boxing gloves and the hoodie.

After printing, you can paint and design the model as you like to give it your personal touch.
