updated 1. 7. 2023 | published 1. 7. 2023

Summary

I made a wall mount for the spool and needed a new filament guide. It's a remix of the Prusa version.

Because it's printed on the side, you need a small support. I've attached the gcode and the 3mf files because of the supports. I used the new organic support.

For the best result, please use the bolts and white tube from the original guide that Prusa sent you.

This remix is based on

Filament Guide
