Inspired by [Derek Pearce's Hippo Table](#) (see inspiration.jpg) and sliced from [Hippopotamus](#) from [Lali3d](#).

Printed on my Prusa MINI, as large as it can go, which I will use the glass from a picture frame (or other small source) and center-sandwich the glass inbetween the two pieces. I used a little bit of clear silicone caulking to hold all the pieces in place.

This will go to my friend Tessa, who's obsessed with Hippos and sent me the original picture, with 😊 eyes.
