Summary

Battery Dispenser - 24x AA

[Household](#) > [Other House Equipment](#)

Tags: [battery](#) [batteryholder](#) [batterystorage](#)

I recommend scaling the model at time of printing, in X 103%, and Y 105% and Z 102%, so that the batteries circulate better inside and at the same time it allows you to put some labels on them or make them a little thicker without being get stuck.
