Summary

Replacement strap to hold the swiftlet cup holder on the Kammock (hammock) swiftlet frame.

[Household](#) > [Outdoor & Garden](#)

This strap replaces the stock strap for the Kammock Swiftlet cup holder. Print it in the softest TPU you have available. I used 90A and it worked okay. The strap is a little longer than the stock strap to make up for the lesser flexibility of TPU vs rubber.
