Support for 65 inch Samsung TV.

Support to approach the wall the impressive 65-inch television to the wall, the original support leaves it far apart from the wall.

Due to the weight of the TV, I have left a hole of 18 x 10 mm to put a metal reinforcement, 20x10 perforated metal profile available in supply stores.

The texture that you see in the piece, is made with the great ideamaker.io laminator.
