updated 2. 7. 2023 | published 2. 7. 2023

Summary

An update adding slots for square magnets. Now works with Wyze V2 that doesn't the screw mount

[3D Printers](#) > [Accessories](#)

Tags: [enclosure](#) [prusa](#)

Uses 4 6.6mm x 6.6mm x 3.3mm square magnets double stacked. They are rather strong so I mounted the stacks in opposite polarity to keep them from popping out. Also, you could just glue them in place

Print settings:

- Material: PETG
- Nozzle: 0.6mm
- Layer Height: 0.4mm
- Infill: Doesn't matter
