updated 2. 7. 2023 | published 2. 7. 2023

### Summary

Needed to rotate the clip 90 degrees to match a different vent fin orientation.

---

[Hobby & Makers](#) > [Automotive](#)

---

Needed to rotate the clip 90 degrees to match a different vent fin orientation. Also added some chamfers so that it would print cleaner. I suggest PETG or ABS, PLA part melted on Day 1 of use...sadness.

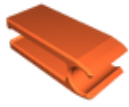

### This remix is based on

**Cable clip for car vent**
