My fan cable kept flying around and more severe, it pushed the extruder cooler <https://www.thingiverse.com/thing:2975582> to the front. So I added a little cable hook. It is based on the remix of the fs-cover <https://www.prusaprinters.org/prints/14527-mk3s-filament-guide-extended-r4-part>.

Update 2022-05-03: added variant for MK3S+

### This remix is based on

**MK3s Filament Guide - Extended - R4 part**
