Jinba ittai (人馬一体 , "person [and] horse [as] one body") is a Japanese four-character compound describing unity of horse and rider which is pertinent to Yabusame, Japanese mounted archery. It is also the design philosophy of Mazda.

I created a Keyring for your Carkey.

Demo printed in PETG on my P1P in 0.16 layer. Next time I will print slower for better details.

A colored version is added as a Bambu 3mf File.
