

Car silhouettes! different models

LutraVulgaris

[VIEW IN BROWSER](#)

updated 23. 5. 2024 | published 23. 5. 2024

Summary

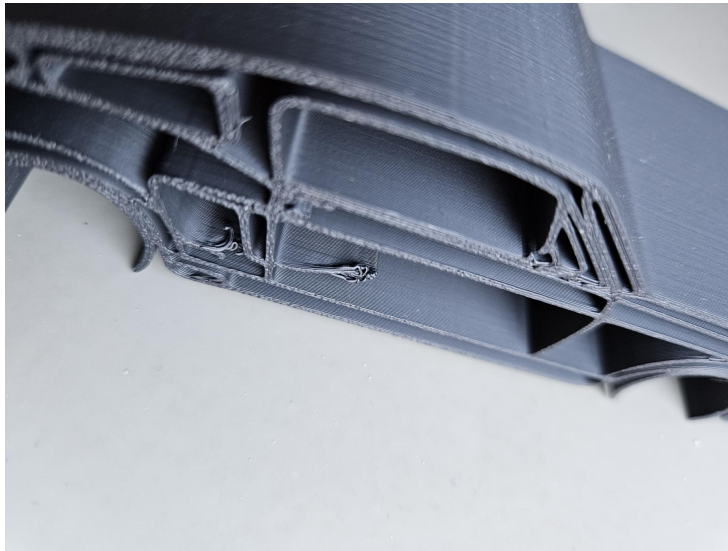

print in place model of various cars. one layer raft recommended. note: not to scale!

scale it up, make it flat, integrate, do what you want ;)

I print with 1 layer raft to compensate for fine lines. Had some trouble on a first print without it, they tend to curl up for there is too little adhesion for a single line. for example:

Also make sure you have enough walls for the thicker designs to avoid infill.

buy me a coffee :) so I can work through the night to keep up with your requests;)

https://www.paypal.com/donate/?hosted_button_id=K2RBKFD4ZVKBE

got some questions on the led display I used:

<https://www.printables.com/model/557388-led-display-plate>
