Summary

This version of the Master Sword prints-in-place all as one part

Toys & Games > Other Toys & Games

This version of the Master Sword prints complete all as one part.
The Replaceable Blade Version is available to my Clubs members.
Supports are not required, for best results use a .4mm nozzle. Find detailed instructions on how to print collapsing swords on my website. If this is your first time printing, I would suggest you try the test print first. If you have issues printing, consider the replaceable blade version. It allows you to print the blades separately in vase mode.
Printed on the Muldex rep-rap IDEX printer

Support and Licensing

If you would like to help support more free models or get permission to sell physical copies of my models, consider joining my Clubs Membership or using my Prusa Shop Affiliate.

Do not repost, distribute, sell or trade the files or physical models of this object.
